

JASON CARR

OBJECTIVE

To solve technology problems with robust and long-term solutions, pushing the envelope of application architecture and design, while targeting an unseen level of functionality and usability.

WORK EXPERIENCE

2009-Present Stanley National Hardware Sterling, IL

Applications Developer

- Implemented numerous server-side communication processes between SQL Server, AS/400, and proprietary mainframe systems using C# and T-SQL.
- Built/modified/maintained several C# Windows and Web applications for use within and outside of Stanley Tools.
- Used the following technologies on a day-to-day basis: C#, ASP.NET 3.5, Microsoft SQL Server 2000/2005/2008.
- Built/modified/maintained several networking Windows Mobile handheld applications used both locally and by sales staff across the US and Canada.

2005-2009 Ablesoft Solutions Oregon, IL

Developer Analyst

- Developed Web and Windows database applications for companies such as Monsanto, ACCME, and other companies local to Oregon, IL.
- Used the following technologies on a day-to-day basis: C#, VB.NET, and ASP.NET 2003/2005/2008; Microsoft SQL Server 2000/2005/2008.
- Worked closely with customers to determine project specifications and requirements.
- Maintained (lead administrator) of five development and two production servers running Windows Server 2003/2008.

2002-2004 Greenville College IT Helpdesk Greenville, IL

Student Technician

- Developed Macromedia Flash applications for distribution to students.
- Provided support for Microsoft Office and Windows 95/98/2000/XP.
- Performed hardware and software repairs.

EDUCATION/SKILLS

2002-2005 Greenville College Greenville, IL

- B.S., Computer Science, missing two non-major courses. *
- Received the Presidential Scholarship.

Technology Expertise

- Extensive knowledge and experience in Microsoft Visual Studio .Net, Microsoft SQL Server, PHP, and Java.
- Other Knowledgeable Applications: Macromedia Flash and Dreamweaver; all Microsoft Office products (including Access and Visio); Adobe Photoshop.

* Degree completed minus Biblical Studies and Fine Arts courses. Ablesoft snatched me up after 3½ years of my college education; therefore I have these two courses left. I plan to complete them via Internet coursework in the near future.
